13/5/2020	site	Unloading vehicles/containers	Employees - spread of Covid-19	<ul style="list-style-type: none"> <li>All loads unloaded by a single colleague in order to maintain social distancing measures using a counterbalance.</li> <li>All stock should be left for 72 hours where practicable.</li> <li>Gloves worn.</li> <li>Hand hygiene promoted.</li> </ul>	Moderate	Rare	Low Risk				

Site	20/10/2021	Spread of disease from interaction with external visitors to site	Employees, visitors, contractors - spread of Covid-19	All non-business critical visits vetted. Contractors only allowed on site following pre-visit screening and induction upon arrival. All external visitors to Site requested to complete a lateral flow test within 24 hrs prior to attending Site. Gated site with access control. Site rules explained by security (observing social distancing) prior to being granted access to site. All visitors asked to complete a Covid-19 self declaration form prior to being admitted to site. Posters displayed controls - handwashing etc. Thermometer on site. All visitors to site must have their temperatures checked upon arrival. Any visitor with a temperature of 37.8 degrees celsius or above must leave site immediately. Face coverings to be worn in high pedestrian communal areas and where 2m social distancing cannot be maintained.	Moderate	Rare	Low Risk	As of 24/10/20 South Yorkshire placed into Tier 3 restrictions, therefore all staff and visitors to site must wear face masks in all communal and indoor Operational areas as per H&S brief.  Only Operationally critical visits allowed during lockdown.	C Edwards	04-20	26/10/20
Site	13/1/2021	Spread of virus through staff contact on site.	Employees, visitors, contractors - uncontrolled spread of virus	Communication and briefs on control measures, handwashing. Risk assessment presentation and individual sign off. Individual risk assessment for those identified as vulnerable. Self isolation policy. Cleaning regimes (regular "touchpoint" cleaning regime) Regular hand washing practices. Awareness posters on safe handwashing, personal hygiene. Separate handwashing basins. Antibacterial hand gels throughout site. Workplace audits. Antibacterial Wipes available to wipe down all equipment at start/end of shift. Thermometer on site. All staff must have their temperatures checked upon arrival. Any staff member with a temperature of 37.8 degrees celsius or above must leave site immediately whereupon their line manager will implement Track and Trace procedures. Face coverings to be worn in high pedestrian communal areas and where 2m social distancing cannot be maintained.	Moderate	Rare	Low Risk	As of 24/10/20 South Yorkshire placed into Tier 3 restrictions, therefore all staff and visitors to site must wear face masks in all communal and indoor Operational areas as per H&S brief.  Operatives driving MHE are not required to wear face masks while operating vehicles.  Operatives who wear glasses may wear a face mask over their mouth as well as a face shield covering the remainder of their face to prevent their glasses steaming up (agreed upon in consultation between HSEF and Operations Staff).  Safety Pause briefed 22/10/20 GM.  Only Operationally critical Site to Site visits by UR staff allowed during lockdown. These are vetted by Senior management via individual Travel Risk Assessments.	C Edwards	04-20	27/10/20
Site	13/1/2021	Spread of virus through staff becoming unwell either at work/or off site	Employees, visitors, contractors - uncontrolled spread of virus	Sickness and Absence policy and procedures. Regular communication to staff on current Covid 19 procedures Return to work interview/process Supervision Quarantine room process FFP3 mask for IP and First Aider. Face shield for first aider Face coverings to be worn in communal areas.	Moderate	Rare	Low Risk				
Site	20/10/2021	Spread of virus due to having to complete two person task with colleague, e.g. Manual Handling - two person lift	Employees - uncontrolled spread of virus	Two person lifts to be avoided. When two person tasks are unavoidable, they are planned to be undertaken by the same two individuals, or pairs of individuals via identified work pairs. Paired activities must be completed in a timely fashion with individuals separating to observe social distancing as soon as possible. Hands must be washed before and after two person tasks. Hand sanitiser to be applied to the hands if hand washing not available. Face coverings to be worn in high pedestrian communal areas and where 2m social distancing cannot be maintained. Powder free nitrile gloves are available in operational areas.	Moderate	Rare	Low Risk	Behavioural audits to be conducted daily in each BU. Actions to be added to a 3C and reviewed weekly.  Awaiting supply of FFP2 masks to be used by operatives performing tasks where 2m social distance is impossible.	C Edwards G Masterson	Ongoing	12/06/20
Site	20/10/2021	Spread of virus due to sites occupants congregating at the same Emergency Assembly Point in the event of an Emergency.	Employees, visitors, contractors - uncontrolled spread of virus	In the event of an Emergency Evacuation of site, it is deemed an acceptable risk for staff to assemble together at their designated emergency assembly point while maintaining social distancing if possible. Emergency assembly point is external. Facemasks to be worn if possible.	Moderate	Rare	Low Risk	Planned evacuation drills postponed during period of lockdown. This is monitored weekly by senior management.	C Edwards	Ongoing	
Site	20/10/2021	Unsuitable cleaning chemicals being used by contract cleaners and staff	Employees, visitors, contractors - uncontrolled spread of virus	Cleaning provider to ensure cleaning chemicals to virucidal grade EN 14476	Moderate	Rare	Low Risk	The cleaning contractor has been contacted and has confirmed that cleaning chemical used on site are to the proscribed standard.  Quote obtained for the Monthly "Fogging" of the Hexthorpe and Jupiter Sites by external cleaning contractor to begin w/e 08/02/21  Fogging ceased in Hex June 2021.	S Courts G Masterson		07/12/20 24/06/21
Site	20/10/2021	The use of face coverings in Operational Areas	Operatives may be impeded in operating MHE as a result of wearing face coverings resulting in injury or damage.  Operatives wearing spectacles and face masks may have their vision obscured due to condensation resulting in injury, e.g. slip/trip incidents	FLT operatives are not required to wear face coverings while operating vehicles. During Bogie lifting operations Operatives are exempt from wearing face coverings in order to give and receive clear verbal communications to colleagues assisting in this task. Operatives must immediately replace face coverings in Operational areas once these tasks are completed if 2m social distancing cannot be maintained.  Operatives who require spectacles have the option of wearing face coverings over their mouths only provided that they also wear a face shield as well.	Catastrophic	Rare	Medium	Behavioural audits to be conducted daily in each BU. Actions to be added to a 3C and reviewed weekly.	Christian Edwards	Ongoing	
Site		Unvaccinated Staff	Greater risk to staff, contractors and	Unvaccinated staff have been asked to identify	Moderate	Unlikely	Moderate
